

# CONTACTS, RACCORDEMENTS

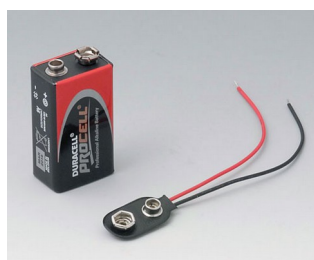

- Vous trouverez ici les contacts permettant la transmission sans câble de l'énergie et des données. Les surfaces plaquées or sont très conductrices et résistantes à la corrosion ; elles assurent ainsi un établissement du contact fiable et sûr.
- Le programme OKW comprend déjà des boîtiers, des socles et des supports pour stations de chargement externes préformées en vue de l'utilisation de ces contacts. Ainsi, l'utilisateur a la possibilité de recharger ses accumulateurs et piles se trouvant dans les appareils et de transférer des données sans avoir besoin de câble, une situation idéale pour les appareils de communication mobiles.
- Ressorts de contact pour piles et raccords de piles.
- Borne à circuit imprimé et réglette à broches.

## Versions

**A9156002**  
Raccord de pile, 1 x 9 V (PP3)

**A9160003**  
Raccords de pile, 1 x 9 V (PP3)

**A9161001**  
Ressorts de contact, 4 x AA  
Acier  
étamé

**A9161002**  
Ressorts de contacts, 2 x 9 V ou  
4 x AA  
Acier  
étamé

# CONTACTS, RACCORDEMENTS

**A9174006**  
Ressorts de contacts, 1 x 9 V  
Acier  
étamé

**A9190002**  
Ressorts de contact,  
2xN/2xAA/2xAAA  
Acier  
étamé

**A9190003**  
Ressorts de contact,  
2xN/2xAA/2xAAA  
Acier  
nickelé

**A9190010**  
Ressorts de contact, 4 x AA  
Acier  
nickelé

**A9190011**  
Ressorts de contact, 2 x AA  
Acier  
nickelé

**A9190012**  
Ressorts de contact, 4 x AA  
Acier  
nickelé

**A9190013**  
Ressorts de contact, 4 x AA  
Acier  
nickelé

**A9190014**  
Ressorts de contact, 2 x AA  
Acier  
nickelé

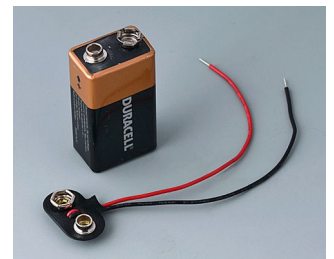

**A9190015**  
Ressorts de contact, 2 x AA  
Acier  
nickelé

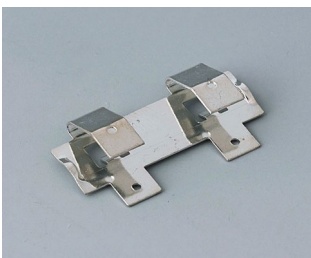

**A9190023**
